## SKILLS

---

**Security:** Incident Response, Risk Management, Threat Detection, SIEM, IAM, Vulnerability Management, Compliance, Access Control, Security Monitoring

**Tools:** Nmap, Wireshark, Burp Suite, TryHackMe, Kali Linux, VirtualBox

**Languages:** Python, Java, C, C++, SQL, JavaScript, HTML, CSS

**Frameworks/Tools:** Flask, Bootstrap, REST APIs, Git, Linux Terminal

**Libraries:** pandas, NumPy, scikit-learn

**Concepts:** Data Structures & Algorithms, OOP, Automation, Web Scraping, Generative AI

## EDUCATION

---

### Sandip University

Sept 2023 - May 2027

*B.Tech Computer Science Engineering — CGPA: 8.35/10*

*Nashik, Maharashtra*

– Relevant Coursework: Cybersecurity, Computer Networks, DBMS, Operating Systems, Data Structures.

## PROJECTS

---

### College Admission Predictor (Python, ML)

Jun 2024 - Sept 2024

*Sandip University*

- Developed ML model using Python & scikit-learn; applied feature engineering and preprocessing.
- Visualized and interpreted datasets for decision-making insights.
- Achieved **85% accuracy**, demonstrating effective predictive modeling.

### Virtual Assistant

May 2024 - Jun 2024

*Sandip University*

- Independently designed an interactive assistant using HTML, CSS, and JavaScript.
- Implemented automation workflows and UI features to simulate real assistant tasks.
- Delivered a working prototype enhancing frontend problem-solving capability.

## EXPERIENCE

---

### Cybersecurity Analyst Intern

Feb 2025 - Present

*Mind Intellect Technology Pvt. Ltd.*

*Remote*

- Executed **incident response** and log monitoring via SIEM, reducing response time by 40%.
- Conducted **vulnerability assessments** using Nmap & Burp Suite; delivered remediation reports.
- Strengthened **access control and compliance** by reviewing permissions and security policies.

### Team Lead – Frontend Developer

Mar 2025

*Safar Setu – Hackathon (3rd Place)*

*Nashik, Maharashtra*

- Led 4-member team to build a secure multi-page travel portal with authentication controls.
- Applied GitHub version control and Agile task allocation for efficient collaboration.
- Improved navigation speed by 45%, contributing to hackathon recognition.

## ACHIEVEMENTS

---

- Top 40 out of 600+ teams in Asia's Largest GenAI Hackathon (SUNHACKS 2K25).
- 3rd Place at Tech Udaan Hackathon for secure, user-friendly travel portal.
- 6th Place at INNOVO'25 Hackathon for rapid prototyping within 36 hours.

## CERTIFICATIONS

---

- Google Cybersecurity Specialization (Coursera), 2025
- Deloitte Australia Cyber Job Simulation (Forage), 2025
- Tata Cybersecurity Analyst Simulation (Forage), 2025
