EDUCATION

Sandip University   Nashik, Maharashtra, India
Bachelor of Technology in Computer Science Engineering   *Sept 2023 – May 2027*

J.D.Hiray Science Jr. College of Science   Nashik, Maharashtra, India
Higher Secondary Education (Science)   *June 2021 – May 2023*

EXPERIENCE

Team Lead – Frontend Developer   Mar 2025
Safar Setu – Tech Udaan Hackathon (3rd Place)   *Nashik, Maharashtra, India*

- Led a team of developers to design and develop a responsive multi-page travel portal using HTML, CSS, and JavaScript.
- Oversaw project planning, task distribution, and GitHub collaboration.
- Created a clean and interactive UI for enhanced user experience.
- Interactive live project: Safar Setu Website
- Source Code Available: GitHub Repository

Cybersecurity Intern (Self-Led)   Jan 2024 – Present
Sandip University   *Nashik, Maharashtra, India*

- Completed 20+ rooms on TryHackMe including Pre-Security and Intro to Pentesting.
- Used tools like Nmap, Wireshark, and Burp Suite for network and web analysis.
- Documented lab solutions and tools walkthroughs on GitHub as practical reports.

Python Project – College Admission Predictor   June 2024 – Sept 2024
Sandip University   *Nashik, Maharashtra, India*

- Developed a Machine Learning based predictor to estimate college admissions using Python, pandas, and scikit-learn.
- Cleaned, visualized, and preprocessed college dataset to improve prediction accuracy.
- Published the project on GitHub: College Admission Predictor

Frontend Project – Virtual Assistant   May 2024 – June 2024
Sandip University   *Nashik, Maharashtra, India*

- Designed and developed a browser-based virtual assistant interface using HTML, CSS, and JavaScript.
- Simulated assistant interactions like responses and triggers with clean UI and animated frontend logic.
- Hosted the project with live demo at: Virtual Assistant
- Source Code Available: GitHub Repository

HACKATHONS & TECH ACTIVITIES

Tech Udaan Minithon – Sandip University | *3rd Place, Nashik, Maharashtra*   Mar 2025

- Developed Safar Setu - a responsive travel portal using HTML, CSS, and JavaScript.
- Handled live demo, Q&A, and technical walkthrough during final round evaluations.
- Recognized for user-friendly interface, presentation clarity, and practical impact.

INNOVO'25 Hackathon – Shri Sant Gajanan Maharaj College | *6th Place, Maharashtra*   Feb 2025

- Secured 6th rank by building a real-world working prototype within time constraints.
- Worked collaboratively with a team to brainstorm, develop, and present the final product.

NASA International Space Apps Challenge | *Participant & Volunteer, Global Event*   Oct 2024

- Contributed as a participant on a space-tech innovation project during the global challenge.
- Volunteered in team coordination, assisting with event setup, technical support, and guidance.
- Gained exposure to interdisciplinary collaboration and NASA-led innovation frameworks.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, HTML, CSS, SQL
Web & Frameworks: Flask, Bootstrap, WordPress (Basic), REST APIs
Cybersecurity Tools & Platforms: Nmap, Wireshark, Burp Suite, TryHackMe, VirtualBox, Kali Linux, Linux, Penetration Testing, Ethical Hacking, Vulnerability Assessment
Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA, PyCharm, Terminal
Libraries & Packages: pandas, NumPy, scikit-learn, speech_recognition, pyttsx3
Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving, Automation, Web Scraping, Debugging
Generative AI: ChatGPT, Google Gemini, Prompt Engineering, OpenAI API, LLM APIs
Certifications: Google Cybersecurity (Coursera)
